**SUBJECT:** STORM WATER PERMIT APPLICATIONS

---

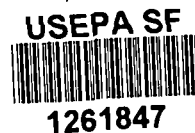

As you are probably aware, October 1 is the federal deadline for submittal of Storm Water Permit Applications.

*JEFF -* It is my understanding that the Seattle, Rivergate, Montana City and Leamington plants do not need to submit applications, as their current water discharge permits already cover storm water discharges. Please confirm with your state water agency that the filing of this application is not necessary. Your terminals are currently exempt by the federal rule because of their SIC 5032 (wholesale distribution of cement, clay and stone products) designation.

Durkee has already filed an application with the State of Oregon; Inkom remains the only plant yet to file.

Thanks.
